

# ENVIRONMENTAL ADVOCATES OF NEW YORK 2014 ANNUAL REPORT

## Letter from the Board Chair

*Dear Friends and Supporters,*

Safeguarding our air, land and water to ensure our quality of life today has been Environmental Advocates of New York's mission for more than forty-five years. Your support and generosity make great things possible, and we can't thank you enough for joining us in continuing to grow the voice of environmental protection.

Under the leadership of Executive Director Peter Iwanowicz, we were successful in achieving significant goals during 2014. We saw the culmination of our years of advocacy on fracking with a commitment from state leaders to ban the practice in New York State. We joined together for the People's Climate March, and rallied for New York to lead on climate change. Not long afterwards, the Governor signed into law the Community Risk and Resiliency Act.

We promoted a clean energy future that leaves behind dirty fossil fuels of the past. We protected clean water funds critical to our environment and public health from being used for other purposes. And, we sounded the alarm on the dangerous volume of crude oil flowing on the railways in communities all across the state.

We also continued to expand the scope and scale of our outreach and provided millions of New Yorkers with important information about protecting the world around us. In 2014, we expanded our advocate network to more than 45,000 New Yorkers, originated substantial media coverage

of important issues, engaged Facebook and other social media users and held events throughout the state.

Without your support, this would not have been possible. Thank you for working with us to protect New York's environment. Your support of Environmental Advocates of New York means the independent voice for environmental protection and healthy communities remains strong while making a real difference — holding legislators accountable and pushing for increased transparency. On

behalf of the Board of Directors and staff, we look forward to continuing to grow a cleaner, greener New York with you!

All the best,

A handwritten signature in green ink that reads "John Buttrick". The signature is fluid and cursive.
