Letter from the Board Chair

Dear Friends and Supporters,

Thanks to your advocacy and financial support, for almost 50 years Environmental Advocates of New York has given the environment a grassroots political voice at the forefront of almost every major piece of environmental legislation. In light of last year's national election, our mission has only become more urgent.

In 2016, we continued to drive change to create a healthier, more sustainable environment throughout all New York communities. We continued to take on the most pressing issue of our time, climate change, advancing efforts to move the entire state economy to 100% clean, renewable energy by 2050 and organizing a new climate advocacy partnership with NY Renews. We also continued to help communities address problems with polluted air and contaminated drinking water, working with them to advocate for legislative hearings and launching our effort for New York to adopt an Environmental Bill of Rights.

Our outreach efforts and relationships with legislators, partner groups, our members and the media also helped to advance a robust environmental legislative agenda for New York on many other fronts: among other initiatives, we called on New York leaders to maintain funding for our parks and public spaces, we pushed for legislation to improve our air quality and increase clean water infrastructure funding and we continued to promote clean energy, stop regulatory rollbacks, protect the health of our children and keep fracking waste out of our communities.

Last year’s election has also caused us to spend more time on national issues than in the past. Among other things, we are fighting the proposed federal budget cuts that would dismantle the Environmental Protection Agency and leave our communities vulnerable to more pollution, contamination and exposure to toxic chemicals.

Fortunately, the strong leadership of our Executive Director and the hard work of our staff, members and colleagues has us on good footing to take on these and future challenges, while continuing to push New York to be a national leader on environmental protection and climate change.

On behalf of the Board of Directors and our staff, thank you again for making our work possible. We deeply appreciate your continued kind and generous support. Our work benefits millions of New Yorkers in their communities each day and makes New York and the rest of the country a greener and healthier place to live.

All the best,

John Buttrick
Chair, Board of Directors

Thank you for your kind and generous support in 2016! Protecting our air, land, and water and creating a safe and healthful climate for all is only possible thanks to you. We are grateful for so many generous donors who support environmental stewardship and protect New York’s environment. While the space to recognize your names in print is limited, our gratitude is not and we thank the many generous donors who support us with gifts under $35. We value all donations that support our work.

Environmental Advocates of New York also extends our thanks to supporters who kindly and generously donated in memory of Helen M. Chapman.
