New York State Department of Health  
Corning Tower Building, Empire State Plaza  
Albany, NY 12237

Dear Governor Cuomo,

On behalf of the undersigned New Yorkers, we thank you for your hard work and dedication in leading us through the current COVID-19 crisis. We are asking now for your continued leadership in ensuring clean water for all New Yorkers by finalizing the strongest Maximum Contaminant Levels (MCLs) possible for PFOA, PFOS, and 1,4-dioxane without further delay.

PFOA and PFOS, known as 'forever chemicals,' accumulate in the body and cause many adverse health impacts, including cancer and weakened immune systems. 1,4-dioxane, too, has been linked to many detrimental health effects. New Yorkers who have been impacted by these chemicals are likely made even more vulnerable to COVID-19.

During this pandemic, New Jersey has recognized the importance of clean water and finalized their MCLs for PFOA and PFOS, and we urge New York to do the same.

In particular, we urge you to move forward with the next meeting of the Public Health and Health Planning Council scheduled for July 30<sup>th</sup>, if not sooner, so that these MCLs can be finalized and New Yorkers are protected from these toxic chemicals once and for all. We continue to advocate for levels that are the strongest possible for our health based on all available detection and treatment technology and the latest science - a combined MCL of 2 ppt for PFOA and PFOS, and an MCL of .3 ppb for 1,4-dioxane. Given the years of delay in finalizing these MCLs, including the months of delay due to COVID-19, we also ask for the rulemaking to be finalized without the deferral provision introduced earlier this year.

You have often stated that cleaning up drinking water contamination is one of your top priorities, and we now ask you to make that priority a reality. Our drinking water - and more importantly, our health - cannot wait any longer.

Sincerely,
